

HOW TO RESTRICT

YOUTUBE KIDS

To change the available settings in YouTube Kids app, do the following:

From any screen in the app, tap the Lock button in the bottom right corner.

Enter the security passcode, whether your own custom passcode or the numbers shown on the screen.

Tap Settings.

Tap the profile you want to restrict.

You're going to toggle off Allow Searching and toggle on Approved Content Only.

When you toggle on Approved Content Only, a window will open prompting you to select the collections you want your kids to watch.

If you're installing the YouTube Kids app for the first time, you'll also be given the choice to turn search off during set up.

YouTube Kids has continued to evolve over the years, adding new features, but it's not the only app offering kid-friendly content. If you'd rather limit screen time, you can also check out some kid friendly podcasts as a great alternative.
